

Demonstration import — test pack

Three organisations from Kashtre Import Data.xlsx. Prepared 23 September 2026.

What was imported

Organisation	Users	Contractors	Branches	Items	Item queues
Metropolitan Care Clinic (MCC)	16	12	1	180	160
London Surgery Hospital (LSH)	150	15	2	900	1,700
Central City Teaching Hospital (CCTH)	800	65	4	3,500	13,160

Also imported: user service-point grants, contractor profiles, hospital/contractor shared items, and items attached to their service points on every branch.

Manage Staff now has two tabs: **Staff** and **Contractors**.

How to sign in

Password for every imported user: **password**

2FA is off for these three organisations.

Login credentials

Organisation	Role	Name	Email
MCC — small clinic	Staff	John Smith	john.smith.0001@example.invalid
MCC — small clinic	Staff	Aminata Kamara	aminata.kamara.0002@example.invalid
MCC — small clinic	Contractor	Emma Williams	emma.williams.0005@example.invalid
LSH — mid hospital	Staff	Amina Kamara	amina.kamara.0001@example.invalid
LSH — mid hospital	Contractor	Njeri Shah	njeri.shah.0026@example.invalid
CCTH — large hospital	Staff	Daniel Mwangi	daniel.mwangi.0001@example.invalid
CCTH — large hospital	Contractor	Sorie Smith	sorie.smith.0088@example.invalid

Same emails work on the server. After login, pick a room, then open **Manage Staff** to check the two tabs.

Timezones for testing

Organisation	Site	Timezone
MCC	Main Clinic	Africa/Kampala (inherited)
LSH	Main Hospital	Europe/London (inherited)

Organisation	Site	Timezone
LSH	Riverside Outpatient Centre	America/New_York
CCTH	Central Campus	Africa/Nairobi (inherited)
CCTH	East Ambulatory Centre	Asia/Dubai
CCTH	Women and Children Centre	Asia/Singapore
CCTH	Health Sciences Campus	America/Los_Angeles

What to check

- Sign in with any email above and password **password** — no 2FA prompt.
- Manage Staff → Staff tab vs Contractors tab.
- Items appear on their service points / queues.
- Shared items still show a hospital / contractor split.
- Switch branch on LSH or CCTH and confirm the local date/time follows the timezone above.

Demonstration data only. Emails use the .invalid domain and are not real inboxes.
